To whom it may concern

Re: Morley Construction Inc.

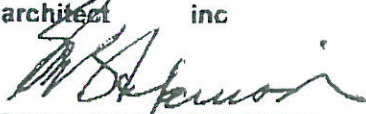

We have recently completed two projects with Morley Construction Inc.

The most recent was a \$3.8 M, 28,000 ft² addition to the AstenJohnson Dryers plant in Kanata and the second was a \$575,000, 8,000 ft² office fit-up for Corrections Canada, with severe time restraints - the schedule was met.

In both projects I was impressed with the professionalism of the partners, project managers and superintendents and office staff. In each project, we received their complete cooperation to ensure the Client's satisfaction. They may be one of few general contractors we've dealt with recently that clean up any noted deficiencies to the 100% level - I remain impressed.

I would highly recommend this firm to undertake any project you may be undertaking.

Sincerely
S. A. STEFANISON
